DRaaS for Zerto

RECOVER

Simplify recovery and improve IT resilience.

DISASTER RECOVERY FOR ZERTO

Recover Zerto replicas in the cloud with the industry leader in disaster recovery.

When unexpected problems happen, your team cannot afford downtime, and neither can your customers. Whether you're dealing with a power failure or something more invasive like a security breach, you need a disaster recovery (DR) solution that can get your organization back up and running quickly— to avoid damaging your reputation or your bottom line.

11:11 DRaaS for Zerto provides you with the ability to reduce downtime and customize your IT recovery. Easily replicate your mission-critical virtual machines (VMs) to the secure 11:11 Cloud through our seamless integration with your on-premises, VMware-based environment and Zerto's industry-leading technology.

With customized runbooks, 11:11 DRaaS for Zerto helps you orchestrate failover and failback. Enjoy optimized recovery time objectives (RTOs) and near-instantaneous recovery point objectives (RPOs), along with network flexibility, straightforward pricing, and unified management of your DR environment.

We have years of experience and industry-recognized leadership in disaster recovery as a service (DRaaS), which is why 11:11 Systems makes deployment, testing, failover, and failback easier than ever.

Zr
DRaaS for Zerto

11:11 DRaaS for Zerto provides you with an integrated DR solution designed to help you recover faster.

Key Benefits:

- Centralized management and reporting via the award-winning 11:11 Cloud Console
- Orchestrated failover and failback
- Integrated Zerto replication
- Simplified DR management with Runbook Recovery Groups
- Available planning, design, and management services to address organizational requirements
- Dedicated compliance support to address geographic and industry regulations
- Included 24x7x365 customer support

Enterprise-Class Infrastructure:

- Familiar, integrated VMware-based infrastructure and services
- Fully redundant environment, built on leading-edge technology
- Geographic diversity with data centers in the Americas, Europe, Asia, and the Pacific Rim

Since no business is immune to disaster, your DR solution should help you recover quickly.

11:11 DRaaS for Zerto provides optimized replication and rapid recovery. Zerto's continuous replication technology cuts RPOs to seconds and RTOs are nearly instantaneous. Our integrated Failover Wizard also delivers alerts and reports from the 11:11 Cloud Console to help you through the failover process. Whenever you need extra guidance, 11:11 DR experts are available to help.

Comprehensive Security and Compliance

Every 11:11 Cloud solution includes multi-layered security and compliance, including antivirus, anti-malware, firewall, intrusion detection/prevention, and integrity monitoring. We also provide you with comprehensive reporting for compliance purposes, via the 11:11 Cloud Console.
